

## Write up – Opposable Thumb Investigation

Write up your formal written investigation of opposable thumbs.

It should include the following components:

- Introduction - Big Idea Question (does not have to be testable); Testable question; Rationale for the testable question (how you think it relates to the big idea)
- Protocol
- Results
- Conclusion - This is also know as a Discussion - Answer to the testable question; Answers to Analysis questions (either as 1., 2., etc or wrapped into a paragraph); Discussion of any patterns, problems, etc (this is part of Analysis question #1).
