

Radiolab Body Systems

Instructions:

1. Listen to a radiolab episode about one of the body systems we have talked about (or will talk about)
URLs for the episodes are below, but you can also access them by going to the radiolab homepage and searching for the episode title: the last words at the end of the URLs.
2. Make a 3-8 minute audio file (mp3 format) that
 - a. Summarizes the main points of the podcast and describe what you found most interesting.
 - b. Connects back to the body system in bold and any other body systems that were involved.You can use your phone or software you have, or download Audacity (<http://www.audacityteam.org/>). Just make sure it's in mp3 format!
3. Email your audio file to Dr. Johnson: drjohnsonwpcp@gmail.com by **2/23/17**. We will be sharing the audio files with the rest of the class.
