Applications are now being accepted for the NASA All-Stars Program at The University of Chicago

In this program you will:

- Collaborate with teachers, scientists, and peers as you undertake an intensive, three-week astronomy research project.
- Discover what the Universe reveals to us when we explore it in different wavelengths.
- Learn how to use online astronomical databases, including the Sloan Digital Sky Survey and NASA mission databases.
- Get started on research for your Science Fair project.

- Explore pathways to STEM education and careers.
- Enrich your college application.
- Receive a personal computer that becomes yours to keep upon completing the program.
- Receive a family membership to the Adler Planetarium and Astronomy Museum.
- Have a memorable experience!

THE APPLICATION DEADLINE IS **FRIDAY, MAY 16**, 5:00 P.M. APPLICATIONS AND RECOMMENDATIONS MUST BE SUBMITTED [ONLINE](#).
