

Atlas of the Human Skeleton

Choose one skeletal section from each category. Use the atlas to memorize the names and locations of specific bones and surface features. Practice on the skeletons and bones in the bone box in the classroom.

Skeletal Division	Skeletal Section	View	Figure in Atlas	
Axial	Skull	Anterior View	1	
		Right external view of lateral surface	2	
	Mandible	Right lateral view	11a	
		Right medial view	11b	
		Vertebral Column	Right lateral view	17a
	Posterior view		17b	
	Typical cervical vertebra superior view		19b	
	Thorax		Anterior view	23a
		Posterior view	23b	
		Appendicular	Scapula	Anterior view
	Posterior view			24b
	Clavicle		Lateral aspect	24c
Inferior view & superior view			24d	
Humerus			Anterior view	25a
	Posterior view		25b	
Articulated ulna and radius	Anterior view		26a	
	Posterior view		26b	
Hand	Dorsal aspect		27b	
	Articulated pelvis		Anterior view	28c
Posterior view			28d	
Femur	Anterior view		29a	
	Posterior view	29b		
Articulated Tibia & Fibula	Anterior view	30a		
	Posterior view	30b		
Ankle & foot	Superior surface	31a
