

Earth Science Topographical Map Study Guide

1. Do you understand the following terms:

Contour interval	contour line	longitude	latitude
Prime meridian	parallel	map legend	meridian
International date line	hachure	map scale	cartography

2. Can you identify latitudes & longitudes on a map?

3. Can you calculate a gradient on a map?

4. Can you analyze a topo map - find the highest elevations, lowest elevations, roads, streams, etc?
